FOR IMMEDIATE RELEASE:

XPORTECHS selected by Intuitive Business Concepts to deliver XperCARE Managed IT Services.

Ellicott City, Maryland – September, 2009 – XPORTECHS, a leading Proactive Managed IT Services and IP Telephony Partner, announced today that it has been selected by Intuitive Business Concepts, LLC. to deliver XperCARE Managed IT Services. IBC ranks among the top Authorized iMIS Solution Providers in the world and has received numerous awards, including **Solution Provider of the Year**. The XperCARE solution proposed by XPORTECHS gives IBC the “Peace of Mind” that their computer network will be reliable while providing redundancy and security.

According to, Melissa Mack, Managing Partner; “Our previous IT support company did not provide us with a high level of support and service. Our IT support needs require access to senior level II & III engineers, so I was looking for a local company that could possibly live up to what I expected. I interviewed several IT firms and selected XPORTECHS for their professionalism, knowledge and experience. I am extremely pleased with my decision to go with XPORTECHS.”

The implementation of the XperCARE Premium Plus service was installed in just a few hours. Once the system is fully implemented, XPORTECHS will be able to monitor the IBC’s network remotely 24/7 and provide key IT functions such as: helpdesk, problem remediation, remote backup, patch management, anti- virus/spyware protection, Internet security, and content filtering.

“XPORTECHS is very excited about the relationship with Intuitive Business Concepts. “Our expertise enables us to access a situation quickly and provide rapid response time to meet the individual needs of our clients. Our ability to swiftly adapt to resource requirements, scheduling, and availability of products allowed us to perform without hesitation” said Michael Mellott, President at XPORTECHS.

About XPORTECHS

XPORTECHS is a leading IT Services company offering a full range of services including Microsoft and Novell solutions, LAN and WAN connectivity, Proactive Managed IT Services, IP Telephony, Internet Connectivity, and Training. Our focus is on delivering high quality Network Administration, Proactive Management, IP Telephony and Internet Solutions that are critical to solving information needs of our clients. Our philosophy is built on the desire to focus on our select clients and deliver the best customer service available through our certified engineers.

XPORTECHS provides Installation and Support of networks, servers, workstations, firewalls, routers, switches, remote backup and disaster recovery, and IP phone systems. The company also provides on-site and remote support through our XperCARE Proactive Managed IT Services offering. Give us your computer problems and “Xperience the Difference”.
